

Reaching the Peak

Settlements 2000 File Openings 3000

“Reaching the Peak” Final Quarter Theme | Week 41

In the race to reach the peak, how are your offices and departments tracking? As far as the firm is concerned, week 41 has seen the file opening’s climber forge ahead in leaps and bounds, climbing 102 extra steps.

Settlements has also made impressive ground, with their climber covering 36 steps in a short climb week.

We have another short climb week ahead in Queensland, but our climbers are strong and will rise to the challenge with the support of the entire firm.

Some words of wisdom from Lance Armstrong for all of the Shine climbers. “Anyone who imagines they can work alone winds up surrounded by nothing but rivals, without companions. The fact is, no one ascends alone.”
